Who We Are

Founded in 2019 and led by Alex, Corbin Restoration & Construction brings broad experience across a wide spectrum of construction work, ranging from complex structural projects to refined, high-end renovations. Leadership is hands-on, detail-focused, and grounded in real field experience.

Backed by deep industry knowledge, our team manages every phase of the project with precision and intent, creating a smooth, well-coordinated process from beginning to end. Our work is defined by thoughtful planning, close attention to detail, and a commitment to delivering exceptional results—completed on schedule and within budget.

Selecting the right team to bring your vision to life can feel overwhelming. We understand that your project represents one of the most significant investments you will make, which is why we are committed to providing a clear, organized, and seamless experience from the very beginning.

Throughout the entire process, our team prioritizes communication and transparency, ensuring you feel informed and confident at every stage. Our skilled and qualified tradesmen take pride in their work, focusing on understanding your specific goals and executing every detail with care, precision, and intention to achieve a finished result of the highest quality.

We place a strong emphasis on worksite safety and ensure that all contractors accessing your home are fully licensed, properly trained, and held to strict safety standards. This approach protects not only our team, but also your home and everyone within it.

Our Values

Bring your ideas or draw inspiration from our past work. Every project is approached with a clear plan and a high standard for craftsmanship.

We deliver quality workmanship through skilled tradesmen, leadership and premium materials, with close attention to detail and execution that is built to last.
(like a Castle)

We are fully licensed, insured, and experienced across a wide range of projects.

We take full responsibility for the quality of our workmanship, materials, and tradesmen, standing behind every project from start to finish.

QUALITY

PRICE

PROTECTION

SAFETY

Every project is thoughtfully designed and planned around your vision, your needs, and your budget.

We believe in clear, honest pricing surprises, no hidden costs. Just straightforward, reliable service built on trust and transparency.

We ensure the safety of homeowners and families with a qualified, experienced team trained in health and safety practices. Keeping clean job sites for the kids and pets during construction.

Our Process

1. APPROACH

When you contact Castle Deck we begin by taking the time to understand your vision, goals, and expectations. No matter the size or complexity of the project, every build starts with a thoughtful conversation and a clear understanding of what matters most to you.

RESEARCH 2.

During an on-site visit, we assess the project, document existing conditions, and blueprint the work ahead. We'll review your objectives, identify opportunities and constraints, and define the path to achieving the final result.

ACCEPTANCE 3.

Following our on-site review, we typically provide a same-day proposal outlining the complete project scope and final cost. All proposals are obligation-free and remain valid for 30 days. Full Render of deck and space is available. We offer financing options up to 20 years on most projects.

COMMENCEMENT 4.

After acceptance, we establish a start date and complete all contractual documentation to ensure the project scope and expectations are clearly defined and aligned.

A down payment is collected at this stage to allow for permit submission and material ordering, ensuring the project progresses according to plan.

COLLABORATION 5.

We believe strong collaboration is built on communication and accountability. Throughout construction, we provide regular progress updates and manage each phase of the project to ensure timelines, quality, and expectations remain aligned. Direct communication is always available. You are welcome to contact the owner at 612-281-9572 at any time should you have questions or need additional clarity.

COMPLETION 6.

As the project reaches completion, a final inspection is scheduled to confirm the work has been completed properly and to code. After final approval, the remaining balance for the project is collected.

We take a final walkthrough with you to review the project in detail and ensure every aspect meets your standards. All required paperwork and documentation are provided upon completion.

Why Choose Us?

OUR TEAM

Our team combines experience, skill, and attention to detail on every project. Our passion is in our workmanship and in delivering results that bring your ideas to life.

SPEEDY SERVICE

efficient building processes allow us to complete projects promptly without sacrificing quality. When we begin work on your home, it becomes our priority—we don't spread our crews across dozens of jobs at once. If our tools are on your site, your project has our full attention until it's complete.

PROJECT MANAGEMENT

Every project is closely managed from start to finish. Daily progress is documented and reviewed, ensuring work stays organized, accountable, and aligned with the plan. This hands-on oversight allows us to address needs quickly, coordinate materials efficiently, and maintain a steady, well-managed build you can feel confident in.

TRANSPARENT COMMUNICATION

We prioritise clear communication, keeping you informed from start to finish for complete peace of mind.

Our Capabilities

Castle Deck specializes in high-quality residential construction. From refined renovations to large-scale builds, our work is approached with the mindset of building something meant to last.

Like a well-built castle, our projects are designed for strength, longevity, and enduring value. Through disciplined craftsmanship and attention to detail, we create spaces that stand the test of time—leaving a lasting presence, not just a finished project.

Our goal is to raise the bar on industry practices. Operating at higher standards. We are fully licensed and insured, and we hold ourselves to expectations that go beyond minimum requirements. Our commitment is not only to meet industry standards, but to continuously raise them

LICENSED

Our licence information is publicly available on the MN register.

✓ LIC: BC807632

INSURED

We hold multi million in public liability insurance.

This is our way of protecting you, your family, and our team.

Our focus is on delivering projects of the highest quality.

Memberships & Certifications

Castle Deck is a reputable company in the industry, backed by relevant certifications and memberships. We proudly belong to respected associations.

MEMBERSHIPS / PROUDLY PARTNERD

we are accredited A+ rated business with the BBB, Presence at the Minnesota Home And Garden show and we are proud to be a 5 star rated company across all platforms.

CERTIFICATIONS

Our certifications reflect our commitment to excellence. Fully licensed and insured, we meet all relevant standards to ensure quality and compliance on every project.

New Brighton

This project is a full deck remodel centered on structural refinement, thoughtful design, and enduring craftsmanship. The framing was reinforced to enhance stability and long-term performance, creating a solid, composed feel throughout the space.

A custom staircase and carefully selected materials were used to complement the surrounding wooded landscape, allowing the deck to feel both intentional and integrated with its environment. Clean lines, precise execution, and attention to detail define the finished result—an elevated outdoor space built for longevity, comfort, and quiet sophistication.

FEATURES

- Timber Timber tech reserve
- 2x12 Frame
- Celtic Knot Inlay
- Hidden fasteners
- Ghost step
- Divider board

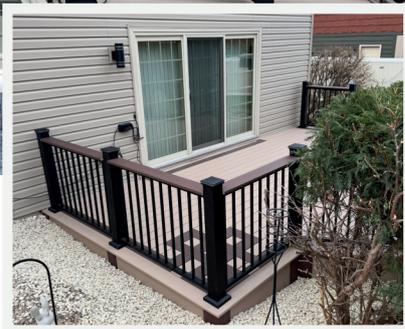

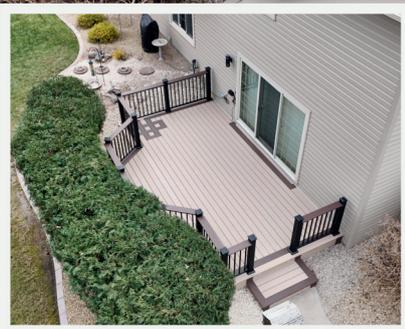

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$30,000 - \$40,000

Castledeckmn.com

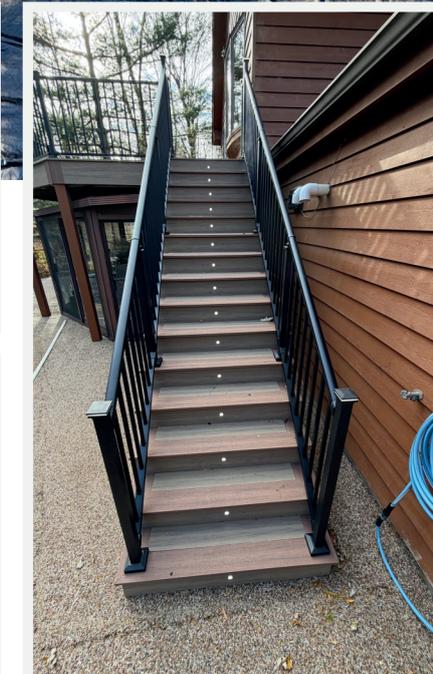

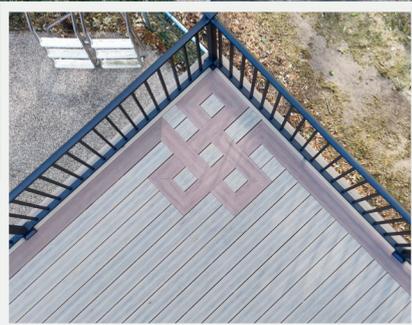

Maple Gorve

This ground-level deck was designed with a focus on clean geometry, refined transitions, and timeless materials. PVC decking was selected for its durability and understated elegance, creating a space that feels crisp, balanced, and enduring. Integrated stair lighting adds both function and atmosphere, while the straight lines and precise execution give the deck a polished, finished presence. The result is a sophisticated outdoor space defined by simplicity, quality, and lasting performance.

- FEATURES**
- Timber Timber tech PVC decking
 - Drink rail with post cab lights & step lights
 - drainage drainage under the deck for breathability
 - Celtic Knot Inlay

▶ Year: 2025 ▶ Builder: Castle Deck ▶ Price Guide: \$30,000 - \$35,000

Oak Grove

This poolside deck was built using slip-resistant decking designed for wet environments while maintaining a clean, timeless appearance. Picture-framed stairs and a reinforced staircase add structure and refinement, while integrated post cap lighting provides subtle illumination and evening ambiance.

The result is a polished, durable outdoor space finished with precision and intention.

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$45,000 - \$50,000

FEATURES

- Deckorators voyage decking
- Post cap lights, stair lights
- Celtic Knot Inlay
- Photo optical auto light sensor power box

Castledeckmn.com

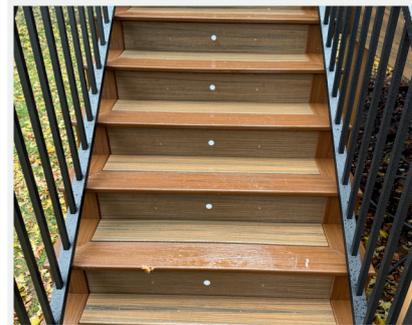

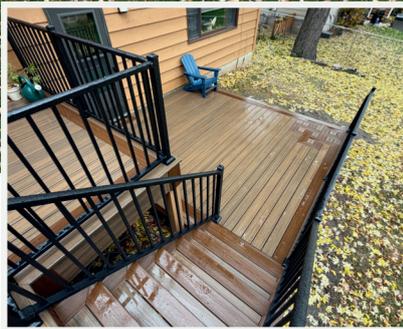

H u g o

This deck was designed as a statement piece, combining stone-wrapped posts, refined inlay work, and continuous beauty boards for a cohesive, finished look. Turned-to decking and floating ghost steps create a sense of lightness and architectural balance throughout the space. Every detail was executed with precision, resulting in a striking yet elegant deck that feels intentional, refined, and built to endure.

▶ Year: 2025 ▶ Builder: Castle Deck ▶ Price Guide: \$65,000 - \$70,000

- ### FEATURES
- Trex enhance natural decking
 - Stone wrapped post
 - Westbury railing
 - Celtic Knot Inlay
 - 3 ghost steps under the patio doors

New Brighton

This two-tier deck was built using KDAT framing for enhanced stability and longevity. Thoughtful inlay work and waterfall-style steps add depth and visual continuity between levels, creating a seamless transition throughout the space. Set within a wooded setting, the deck balances structure and surroundings, resulting in a timeless, composed outdoor space defined by craftsmanship and lasting quality.

FEATURES

- Trex enhance naturals decking
- 2 Celtic Knot Inlays
- Lights in stairs
- Waterfall staircase
- Melted transition, landscape staircase

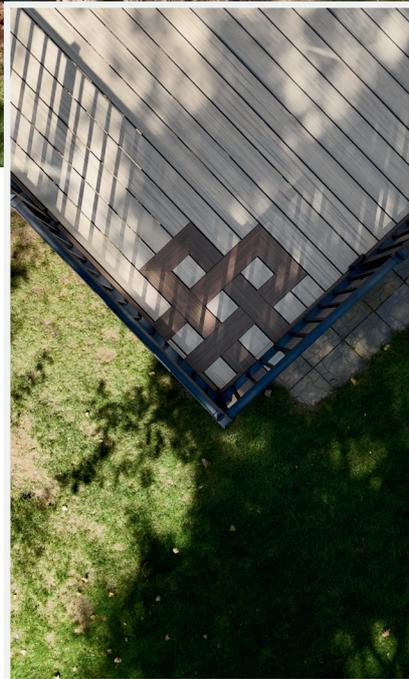

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$45,000 - \$50,000

Castledeckmn.com

Stillwater

Alex was particularly impressed with the framing on this build, where thoughtful engineering allowed us to eliminate two unnecessary footings near the hot tub without compromising strength or performance. The structure was then finished with posts stained in a deep, penetrating black oil, adding depth and contrast to the design. What began as an exceptional frame was ultimately concealed beneath a refined, cohesive finish—resulting in a deck that is as technically sound as it is visually striking.

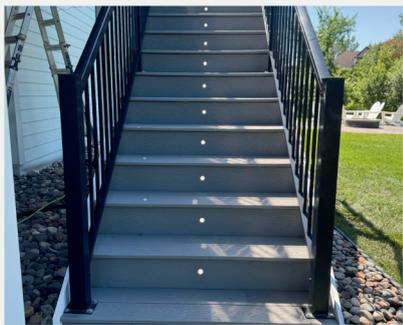

- FEATURES**
- Trex enhanced naturals decking
 - Penetrate oil deck posts
 - Celtic Knot Inlay
 - Westbury railing
 - KADT engineered frame

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$45,000 - \$55,000

Maple plain

This project required a complete deck restoration after failing fascia and deteriorated decking compromised both appearance and performance. Our team rebuilt the space with durable PVC fascia wraps, restored clean deck lines, and added integrated stair lighting to improve both function and atmosphere.

Decorative post crowns were installed to echo the architectural details of the home, creating a seamless transition between house and deck. The result is a revitalized outdoor space that feels intentional, refined, and fully restored.

► Year: 2025

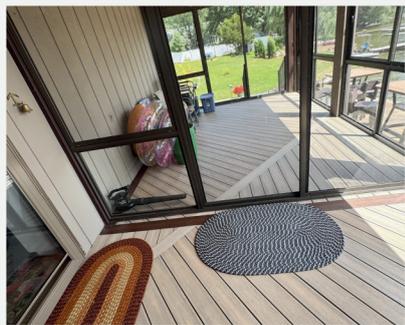

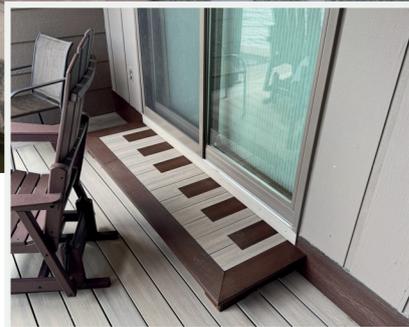

► Builder: Castle Deck

► Price Guide: \$10,000 - \$15,000

FEATURES

- White AZEK PVC
- Lights in stairs
- King Crowns on posts
- 2 stage fascia wrap throughout

Lake Johanna

This project required structural precision to support a four-season porch while maintaining a refined, cohesive design. A custom piano step was integrated into the layout, creating a subtle, personal detail that reflects the homeowner's passion.

On the lower deck, the decking was thoughtfully turned to echo the natural movement of the lake beyond, allowing the design to flow with its surroundings. Fully integrated into the home, this deck stands as a timeless, architectural extension—quietly expressive and built to endure.

▶ Year: 2024 ▶ Builder: Castle Deck ▶ Price Guide: \$70,000 - \$75,000

FEATURES

- Moisture shield deck
- Piano step
- Wave Inlay
- Screened in porch
- Privacy wall
- Rain escape
- Full cedar ceiling

Plymouth

This project began with a failing structure caused by soft ground and excessive, 11 ineffective footings. Through careful engineering and architectural planning, the deck was redesigned to perform properly using only three strategically placed footings—delivering strength, stability, and long-term reliability.

The two-tier layout and material selection were thoughtfully aligned with the home's exterior, allowing the finished deck to blend naturally into its surroundings. The result is a refined, timeless outdoor space where structure and design work seamlessly together.

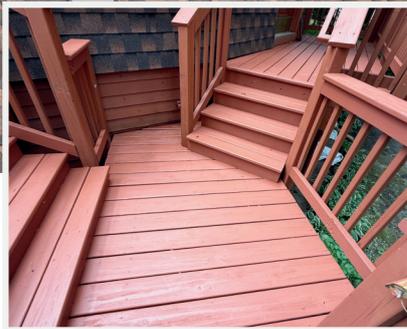

- FEATURES**
- Trex enhance naturals Decking
 - Engineer beams
 - AZEK post wraps
 - White Westbury railing
 - 2 stage dropped frame

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$40,000 - \$45,000

Coon Rapids

This rooftop deck required a complete overhaul after years of structural failure. The homeowner spent nearly two years searching for a builder capable of honoring the original builder's design and level of craftsmanship before trusting us with the project. Executed to the highest standards, the deck was rebuilt with careful attention to proportion, detail, and finish, and completed with intricate, beautifully applied stain work. The result is a timeless rooftop space that feels intentional, authentic, and truly breathtaking.

- ### FEATURES
- Tight Knot Cedar
 - 4 star case project
 - Rymar stain
 - Retaining wall
 - Checkerboard design removable panels

▶ Year: 2025

▶ Builder: Castle Deck

▶ Price Guide: \$45,000 - \$60,000

1300sqf Oak Grove

this property's original deck had served its time and was beginning to fail due to rot and structural deterioration. We reimagined the entire footprint, expanding and refining the layout to create a stronger, more intentional outdoor living space.

Our signature craftsmanship is present throughout — double picture-framed decking, waterfall steps, 3 Celtic knot inlays, and Deckorators Voyage decking for long-term durability and performance. The build is finished with Westbury aluminum railing and a full lighting package, including photo-optic sensor boxes for seamless automation. We don't just build decks. We build statements.

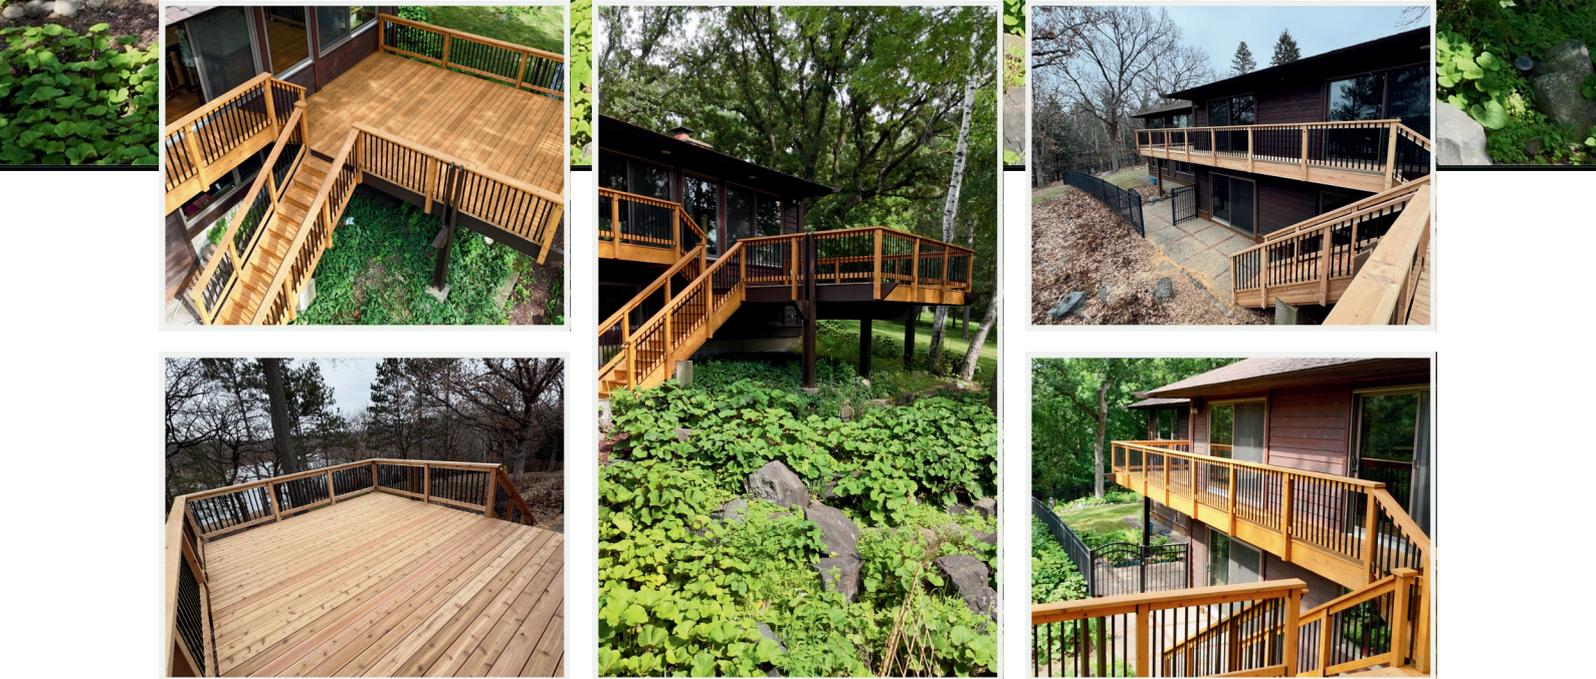

▶ Year: 2025 ▶ Builder: Castle Deck

▶ Price Guide: \$160,000 - ∞

FEATURES

- Deckorators voyage Decking
- Water fall steps
- Full light package
- Engineering
- Helical footings

Eden Prairie

This project features a precisely engineered four-foot cantilevered deck, designed to integrate seamlessly with the home's architecture. Every detail was executed with intention, creating a structure that feels solid, balanced, and refined. Finished with a full Rymar stain and tucked cleanly into the house, the deck complements the character of the home rather than competing with it. The result is a timeless outdoor space defined by restraint, craftsmanship, and lasting presence.

FEATURES

- Premium tight knot cedar
- Rymar Stain
- 4 foot cantilevers
- Signature cedar railing

▶ Year: 2024

▶ Builder: Castle Deck

▶ Price Guide: \$45,000 - \$50,000

Project Configuration & Investment Summary

Authorized by:

DESIGN & LAYOUT

We Don't Just Build Decks.

We Engineer Outdoor Structures.

Every Castle Deck project begins with structural design, blueprinting, and material sourcing. We don't guess. We engineer. Our builds are designed for durability, structural integrity, and a timeless architectural look — not just something that looks good for a few seasons.

if and when you're comparing, think about this: You might not be comparing the same build.

Our Frames Are Overbuilt — On Purpose

Most decks are framed to pass inspection. Ours are framed to outperform. We build with flush beam systems, ladder walls, beefy railing blocking, lateral and sway blocking throughout the structure.

Every railing location is over-blocked internally to eliminate movement. All framing receives joist protection to prevent moisture intrusion at fastener points. We use advanced tooling and systems — including our proprietary deck scaffolding systems— to ensure level-plane decks, tighter tolerances, and safer, more efficient builds. No bounce. No sway. No shortcuts.

Foundation Matters

We prefer helical footings for torque-tested, frost-stable support. In select conditions, Diamond Piers may be used based on on-site evaluation. Footing decisions are made from real soil and load observations — not convenience.

The Ledger Is Critical

The connection between your house and deck is one of the most important structural details. We install ledger boards with flashing practices that exceed code requirements. What delivered is a perfect structural and waterproof merge between your home and your deck.

Water is the enemy. We design accordingly.

Our Standard Finish Isn't "Standard"

Single / Double picture-frame layouts. Hidden fasteners and plug systems. Laser-straight course lines and inlay work. Signature ghost step detailing. We prefer TimberTech decking for its manufacturing consistency, how they stand behind their product and long-term performance.

What you see on top reflects what's happening underneath.

Stairs Are Where Craftsmanship Shows

This is where we separate ourselves.

Our stair fascia is cut and detailed to prevent snow and ice from pushing boards outward during Minnesota cold months. All stairs are picture-framed and plugged. Stringers are custom-built in house. Our team goes through rigorous stair training including stair math and structural geometry — because stairs are not an accessory. They are an engineered assembly.

Details That Most Skip / don't know to ask for.

We use matching fascia systems and install beauty boards beneath railing posts and at corners to manage expansion and contraction correctly. These details keep your deck looking right — not just now, but years from now. Depending on materials selected, warranties can extend up to 50 years.

We Pull Permits. Every Time.

There are no shortcuts. If we build it, it's permitted. If it's permitted, it's inspected. If it's inspected, it's safe! Demolition is handled in-house with care and precision. Your property is respected from start to finish.

Built to Exceed Code — Not Just Meet It

frames are designed with undulation, moisture protection, and manufacturer installation requirements in mind to preserve warranties and extend lifespan. We don't build decks just because we are good at it. We build them to raise the standards in this industry.

PROJECT DETAILS

Deck blueprint / layout grid

* use this space to sketch the deck footprint stairs, elevations, landings and rail runs

- Deck / Multiple?
- Joist Tape
- 3 or 4 Season
- Rain escape
- Siding
- Concrete/Patio
- Divider Boards
- Custom Lighting
- Custom inlay
- Pergola
- Rain gutter system
- 3d Render service
- custom: _____
- Staircase / Multiple?
- Footings
- Decorative Fascia
- Picture frame
- Stair Lights
- Railing Lights
- Patio Door
- Landscaping
- Wet / Dry Bar?
- Table / Multiple?
- Gate
- Heaters

Decking Type / Brand _____

Sqf of Decking _____ Sqf

Railing Type / Color _____

Linner Foot of Railing _____ LF

Footing Type: Helical - Dp50 - Dp75

Framing material: Green treat - KADT - Metal - OC

PROJECT INVESTMENT

Total project estimate: \$ _____

- Includes materials, labor, permitting, project management and disposal.

The Bottom Line

If our price is different, it's because the structure is different. More blocking, Stronger beams, Stronger footings, Cleaner lines, Tighter tolerances. Engineered stairs, Long-term protection. This is not an average meets code rush build. This is the Castle Deck standard.

Thank you.
